RACE / Slope

GS SPUR

For Racing only The GS is a thoroughbred Giant-Slalom ski for the early mornings, untouched Slope. No compromises here - the only thing that counts is ultrasonic speed.

Features:
We have reworked our GS line and added an even shorter model at 180cm. We have changed the flex for more power and grip and we added more flex in the tail for better radius variation. A pure fine adjusted race machine for GS racing and fast pist lines.

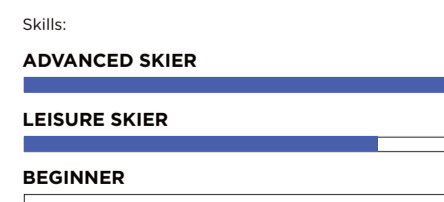

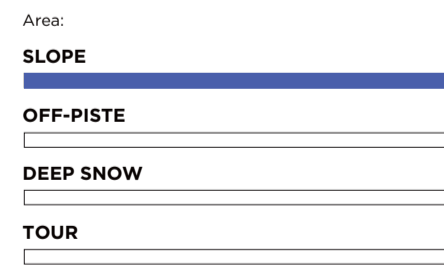

We recommend:
Vist World Cup Race Platte 14mm Aul

Length: **188 183** cm

110	110	mm
70	70	mm
95	95	mm
23,1	21,2	m

Camber: Race Camber

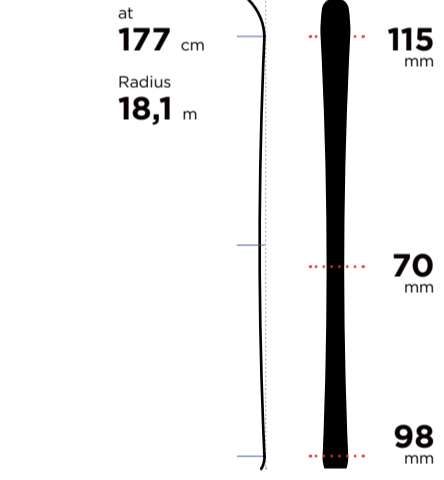

Carv SPUR

The Carv SPUR is the ultimate carving tool for high response, power and precision at all turning radiusses and speeds.

Features:
This is the ski for those looking for uncompromising performance on the slopes. All our race carvers are boosted with an additional biaxial layer of fiberglass, which provides more torsional stiffness for a more precise edge hold. Short or long radius turns can easily be mastered as a result of this edge hold. The structural combination of ash wood and fiberglass makes this ski a particularly flexible and fun carving tool.

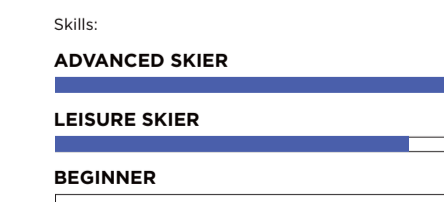

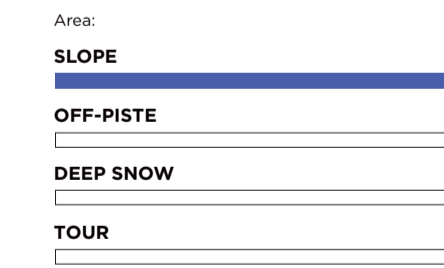

We recommend:
Vist Race Platte WC dual 10mm

Length: **183 177 171** cm

115	115	115	mm
70	70	70	mm
98	98	98	mm
13,2	11,9	16,7	m

Camber: Race Camber

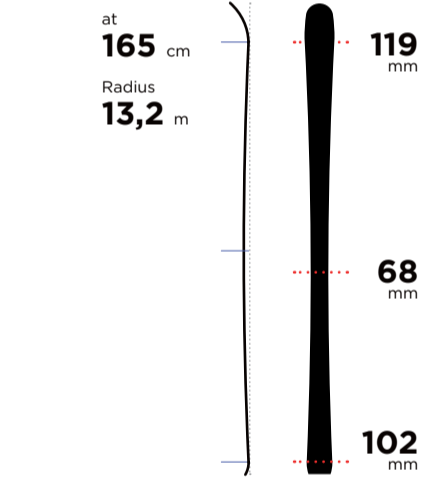

Slalom SPUR

The SLALOM SPUR is designed specifically for the advanced skier who prefers tight radical carving turns on groomed snow.

Features:
This is the ski of choice for carving and slalom specialists. All our race carvers are boosted with an additional biaxial layer of fiberglass, which provides more torsional stiffness for a more precise edge hold. Short or long radius turns can easily be mastered as a result of this edge hold. The structural combination of ash wood and fiberglass makes this ski a particularly flexible and fun carving tool.

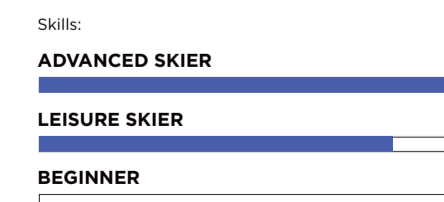

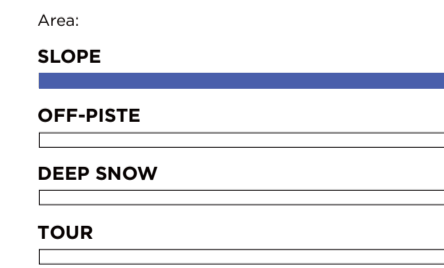

We recommend:
Vist Race Platte WC dual 10mm

Length: **183 175 167 159** cm

119	118	mm	
68	68	mm	
98	98	mm	
13,2	11,9	16,7	m

Camber: Race Camber

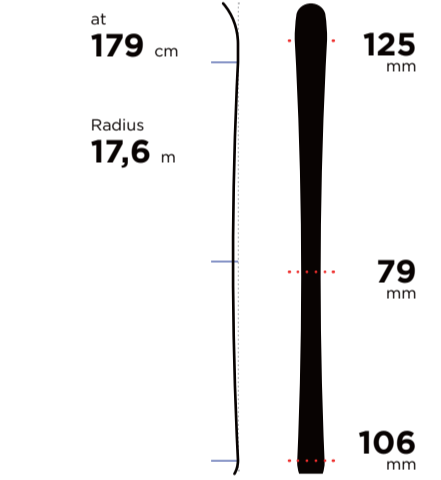

Cruise SPUR

The CRUISE SPUR is a good - natured and playful carving ski for groomed snow with a soft flex for easy manoeuvrability and control.

Features:
The CRUISE SPUR's 75 mm waist under the binding provides precise carving and speed control (even without a race plate). It is easy to turn and allows effortless carving with precise edge hold. It's a pleasure to ride and has great edge hold. Its relatively wide turning radius in proportion to its overall length allows versatile turns and stability even at higher speeds.

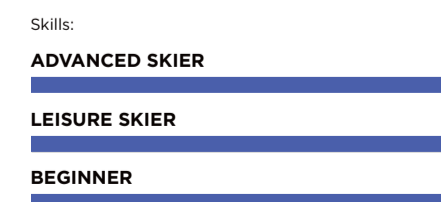

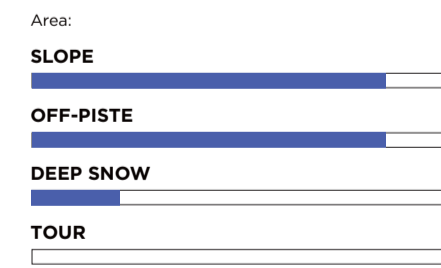

We recommend:
Look SPX 12 oder Pivot 14

Length: **179 173 167 159** cm

125	125	125	124	mm
86	86	86	86	mm
102	102	104	104	mm
17,6	16,3	15	14	m

Camber: Flatt Tip Camber

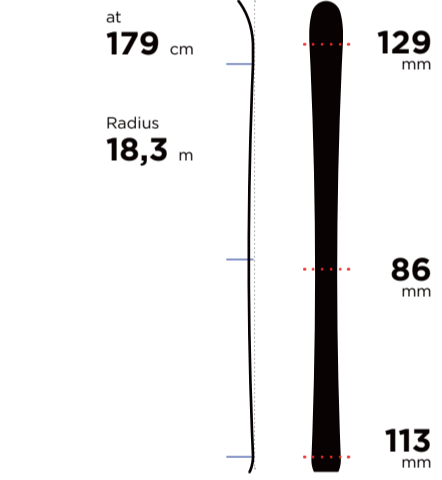

Spiel SPUR

The Spiel SPUR is a race carver for off-Slope with an S-curve, whichever way - forwards, in mid-air or backwards.

Features:
This is the ski for those looking for high performance on all terrain regardless of the snow conditions and is a reliable partner particularly in alpine surrounds. With its 98mm waist it is incredibly versatile. The soft tip gives it the necessary lift to make powder skiing a breeze and is just rockered enough to eliminate vibration on hard packed and uneven terrain. It has a wide turning radius, drifts easily and keeps you on track whether on untracked or tracked out terrain.

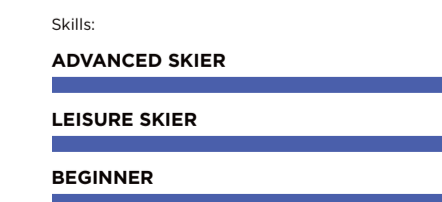

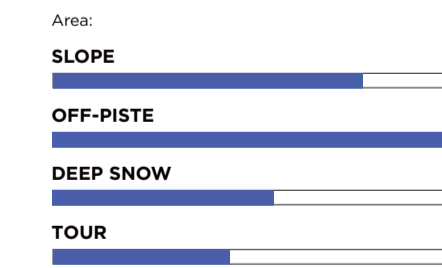

We recommend:
Look SPX 12 oder Pivot 14

Length: **184 179 173 167 159** cm

129	129	129	128	128	mm
98	98	98	98	98	mm
102	102	104	104	104	mm
19,4	18,3	16,9	16,1	14,6	m

Camber: Fine Tip Rocker / Camber

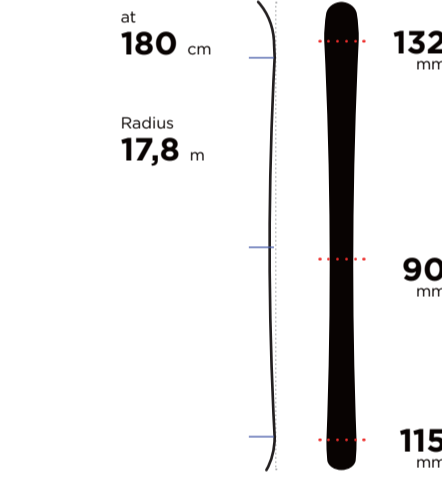

Flipp SPUR

The All Easy SPUR is playful and wide band on- and off-Slope.

Features:
The ALL EASY SPUR is like a carver but for open terrain. Its rocker - Camber - rocker construction gives this ski a very narrow radius thus making it very versatile. Its short edge makes it easy to turn, particularly at low speeds. The rocker tips and tails are quite soft to avoid wobbling. Reworked for this season with an even finer tuned Flex Tail and new lengths.

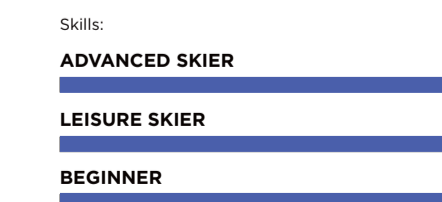

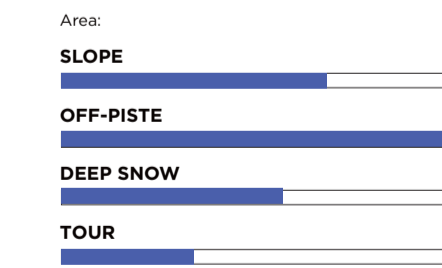

We recommend:
Look SPX 12 oder Pivot 14

Length: **186 180 174 166** cm

132	132	132	131	mm
98	98	98	98	mm
130	130	134	122	mm
19,3	17,8	16,5	15,5	m

Camber: Fine Tip Rocker / Camber

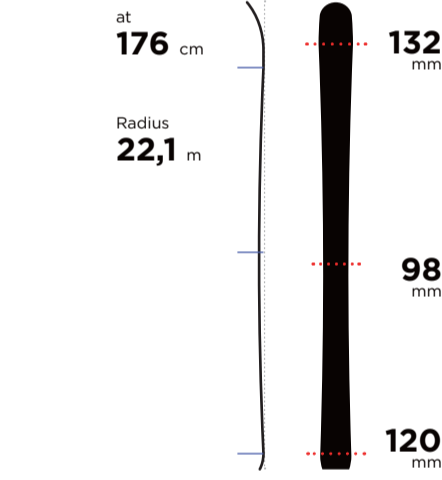

Alpin SPUR

The ALPINE SPUR is a reliable companion particularly in alpine terrain and on ski tours.

Features:
The ALPINE SPUR performs well on all terrains regardless of the snow conditions and is a reliable partner particularly in alpine surrounds. With its 98mm waist it is incredibly versatile. The soft tip gives it the necessary lift to make powder skiing a breeze and is just rockered enough to eliminate vibration on hard packed and uneven terrain. It has a wide turning radius, drifts easily and keeps you on track whether on untracked or tracked out terrain.

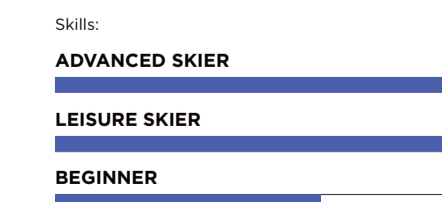

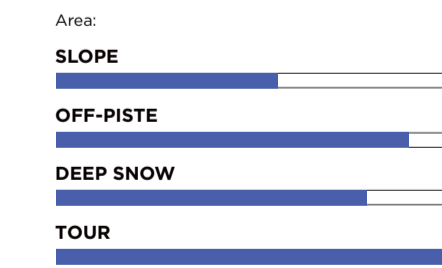

We recommend:
Look SPX 12 oder Pivot 14

Length: **189 183 176 167** cm

134	134	134	134	mm
106	106	106	106	mm
130	130	134	122	mm
24,6	23,3	22,1	19,6	m

Camber: S- Rocker

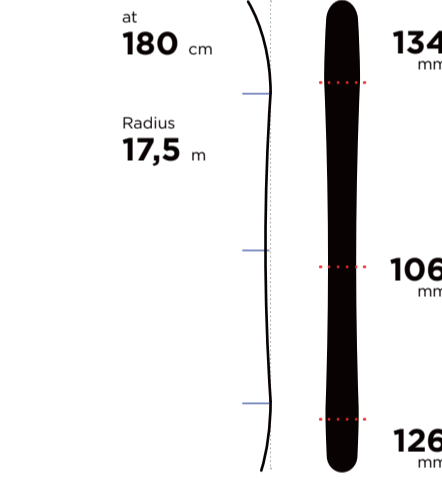

All Easy SPUR

The ALL EASY SPUR is playful and wide band on- and off-Slope.

Features:
The ALL EASY SPUR is like a carver but for open terrain. Its rocker - Camber - rocker construction gives this ski a very narrow radius thus making it very versatile. Its short edge makes it easy to turn, particularly at low speeds. The rocker tips and tails are quite soft to avoid wobbling. Reworked for this season with an even finer tuned Flex Tail and new lengths.

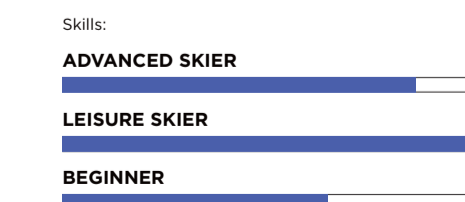

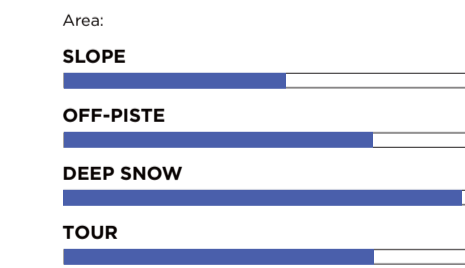

We recommend:
Look SPX 12 oder Pivot 14

Length: **188 180 172 164** cm

142	142	142	mm	
116	116	116	mm	
130	130	130	mm	
19,8	17,5	15,7	15	m

Camber: Tapered Tip & Tail Rocker

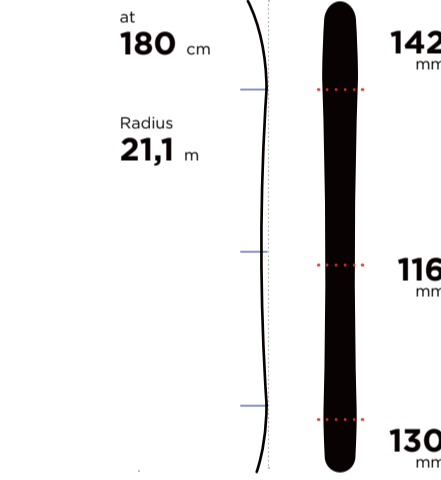

Alpin SPUR

The ALPINE SPUR is a reliable companion particularly in alpine terrain and on ski tours.

Features:
The ALPINE SPUR performs well on all terrains regardless of the snow conditions and is a reliable partner particularly in alpine surrounds. With its 98mm waist it is incredibly versatile.
